Wedding Options:

Our Philosophy is “To capture the pure essence of the moment with technical excellence, an artistic touch, and a sensitive soul.” This is your special day, we are here to record it, not direct it. We are your photographers for the day, you are in charge. We provide the memories, you enjoy the moments.

Christine is an award winning, PPA Master Photographer, PPA Certified Professional Photographer, Florida Master Photographer, Photography Instructor and the primary shooter. She works with assistants for most weddings and only schedules a few weddings every year.

Images are captured in RAW then processed on computers for color and density, culled and renamed before viewing. These images are ready to print although images selected for your album or for large prints undergo additional digital post production finishing. Posting to the internet is done within a few days and viewing is available for 30 days but may be extended. Preview books, albums, engagement sessions and wall portraits are also available.

We recognize the wedding market has changed and have adjusted our prices and services to provide processed wonderful full size images for your use with or without preview books and albums.

Small Weddings

Up to 3 hours of photographic coverage, one location, with Color and density corrected digital images. Images on the Internet for 30 days.

Starting at \$800 Custom Preview book + \$200.

Larger Weddings
